TRAINING COURSE

Alternative Communication

28 September - 9 October

This project is a training course about citizenship. This topic will allow us to think collectively about today's European society, and how to improve it.

OUR AIM

The main goal is to allow participants to discover different ways of acting and being involved as an European citizen. They will be initiated to participative and playful methods about public debates. We want to raise awareness that the informal education is one of the keys to improve our involvement in the society. In creating debates and discussion spaces, we will increase the collective decision making. Another aim is to promote the European citizenship. This training course will be a place where the participants will be able to express themselves, their opinion, be listened and also discover other points of view.

METHODS

Participative methods will be used. The participants will have to be active and involved in every workshop and get them to think, analyze and debate. By this tool, they will learn knowledge and know-how passed on during the training.

VENUE AND DATE

The training will take place during 12 days at Bédaille (Ariège, France), in an old farm rented by our organization.

There will be around 25 participants coming from all over Europe.

The training will take place from the 28th of September to the 9th of October (travels days included).

PROGRAMME

The activities that we will put in place will be all about thinking and acting collectively. We wish to give to the participant tools that they can use and reproduce after in their personal or professional life.

So far the activities will be:

- Clown activism
- theater of the oppressed
- role game about the society and inter-cultural situation
- creation of an advertising campaign against advertising.
