## Summary of the project

Our country make many breakthroughs in sports, on behalf of the understanding

of the value of sport in society, these activities are used. But to be inadequate with sports participation and healthy lifestyles in Turkey as well as the many young people are fully adopt the European Union. We would like to show meaning of violence to young people when they understand how they can reduce violence in society. We would like to also show them "sport" can be a key for reduce violence. Each year 2nd of the the october is celebrated "No to Violence" day. We created some activities to organize international event for that day and enjoy it in Adana city. We tried the our best to separate meaning of peace. We plan to perform our activities in Adana city centre between 26th September and 3rd october. The reason we determine to be able to celebrate this date, 2nd of october is "No to violence" day in our project. Our partners will be from Italy, Finland, Czechia, Greece, Lithuania and Poland. Our partners would include many success to our Project after our criteria's. Through our Project, first of all target group will understand definition of violence in many different way and these people would be able to solve this problem. They will realize violence is not a solution, it is own chaos. Target group will have more sensibility about possibilities of European union program and they will have more information about Erasmus+ program. Participants will understand philosophy of taekwondo and they will get peace message with importance of physical activity. They will also understand that sport is very important tool to reduce violence.
