

INFO-PACK – Training Course 1: E+ Youth-Activizanship – Volume I

CONTEXT

The KA1 Erasmus+ project E+ Youth-Activizanship aims to enhance youth participation in 10 communities in Europe. Participation is key for inclusion and resilience of youth in our society that is becoming more fragmented and complex. We clustered 4 major constraints to youth participation: 1) participation and legal status; 2) participation and gender; 3) participation and educational background; 4) participation and religion. Based on the 4 clusters, the project improves competences/methods/tools of participants thus increasing the involved NGOs' capacities to reach out and empower youth not engaging in social and political life.

GOALS

- To further professionalise youth workers by making them experience and reflect on innovative methods and tools which they can acquire and use to foster youth participation in their respective communities;
- To foster the bottom-up development of youth participation action plans based on evidence and experience of participants using four thematic clusters of participation as a theoretical framework.

METHODOLOGIES & SCHEDULE

The project is extensively built on non-formal education principles and methodologies. The TC schedule has 4 daily sessions 10:00 -11:30, 12:00-13:30, 15:00 -16:30, 17:00-18:30; one morning study visit; one afternoon free.

TARGET GROUP

30 youth workers, young leaders and trainers from HU, RO, BG, CZ, GR, ES, BE, LT, IT and DE, who are:

- interested in delving into theory and practice of youth participation;
- motivated to develop youth participation action plans to enhance youth engagement;
- fluent in English.
