Gulbenes distric youth centre "Bāze"

ABOUT PROJECT

Sinc 2018 Gulbenes district youth centre "Bāze" and structural institutions is started to work via mobile youth work, who allows to open more opportunities for youngsters from rural areas in Gulbenes district. In Gulbenes district we have one city and 13 parishes and only in 3 of parishes we have youth centres. In our opinion, we believe that we need to work, plan and manage youth work also in parishes, where youth work and all potential opportunities is not so common.

Project "Go rural" aim is:

- To ensure that youngsters and inhabitants of the parishes are aware of the European dimension and the opportunities it offers;
- Raising public awareness of the various initiatives and the importance of volunteering (local and European level);
- Developing the capacity of the host and other organizations to host volunteers and to develop join activities with European volunteers.
